Description/Analysis
Issue Detail: Chapter 17 of the Council Rules of Procedure states that each City advisory body shall provide an annual report for review by the Personnel and Public Employees Committee (P&PE). At a minimum, reports should include the following:

- Highlights and accomplishments from the previous year's work;
- Proposed projects, priorities, and recommendations for the upcoming year including resources required and information on feasibility; and
- Any other information required of the advisory body according to the Sacramento City Code.

There are two sections of the report template which are informed by the, Active Transportation Commission (Commission), including

1. Message from the Chair; and
2. Recommendations to Council Message from the Chair

The message can be from the Chair, Commission, or staff reflecting on the past year, accomplishments, and looking ahead to future goals.

At the May 21, 2026, Commission meeting, the Commission Chair Isaac Gonzalez established the 2026 Annual Report ad hoc committee. Subsequently, the ad hoc committee developed draft recommendations to be considered by the Commission for later recommendation.

The Draft Recommendations developed by the ad hoc committee were presented to the full Commission on September 17, 2026. A summary of Commission comments regarding changes to the recommendations include:

1. Provide annual Vision Zero program updates to the Commission
2. Confirm a broad set of professionals (planners, different types of engineers) are part of the post-crash safety review
3. Confirmation about whether the Vision Zero target will be updated; suggestion was 2050 to align with State goals
4. Include a list of the names of people who've died in crashes in 2026

A full draft annual report was presented at the October 15, 2026, Active Transportation Commission meeting. A summary of Commission comments regarding changes to the recommendations include:

1. Provide an overview of the Commission goals on page 4.
2. Revise the message from the Chair and Vice Chair to ask Council to bring the report for discussion and presentation.
3. Update *Table 1: Estimated Commission Resources Expended* to reflect nine meetings.
4. Revise the leading pedestrian interval recommendation to focus on intersections where feasible without significant costs related to new electrical, conduit, design and similar.
5. Revise the no right turn on red recommendation to focus on intersections where feasible without significant costs related to blank-out signs.
6. Revise the speed lump recommendation to focus on implementation in the highest need areas and to reduce the requirements to community to implement.
7. Remove the recommendation for downtown 20 mph speed limits and replace with recommendation for leading pedestrian intervals for all new traffic signals and include in City manuals.

This is an action item for the Commission to pass a Motion to forward the Active Transportation Commission 2026 Annual Report to the Personnel and Public Employees (P&PE) Committee.

Policy Considerations: The recommendations are aligned with the following City Code:

2.100.030 Powers and duties of commission.

G. Annually, report to and make recommendations to the mayor and council regarding the status of walking and bicycling in the city and activities of the commission.

Economic Impacts: Not applicable.

Environmental Considerations: This action is not a project that is subject to CEQA because it is an organizational or administrative activity that will not result in direct or indirect physical changes in the environment. (CEQA Guidelines §15378(b)(5)).

Sustainability: The draft recommendations outlined in Attachment 2 are consistent with the City of Sacramento Climate Action Plan Mobility Element by focusing on improving transportation infrastructure and encouraging walking, bicycling, and other active transportation.

Commission/Committee Action: Not applicable.

Rationale for Recommendation: So that advisory bodies may effectively incorporate their important role, voice, and work to provide thoughtful community recommendations to the City Council on a consistent basis, the P&PE Committee shall facilitate the process for advisory bodies to communicate their accomplishments, projects, priorities, and recommendations to the city council.

Financial Considerations: The action requested is to discuss and provide feedback on the Commission’s annual report draft recommendations and does not obligate the use of any funding.

Local Business Enterprise (LBE): Not applicable.
